

THE WAIT

IS OVER

Introducing the **UTV** track conversion system specifically engineered for **4 SEASON** performance

CAMOPLAST TATOU UTV 4S

1

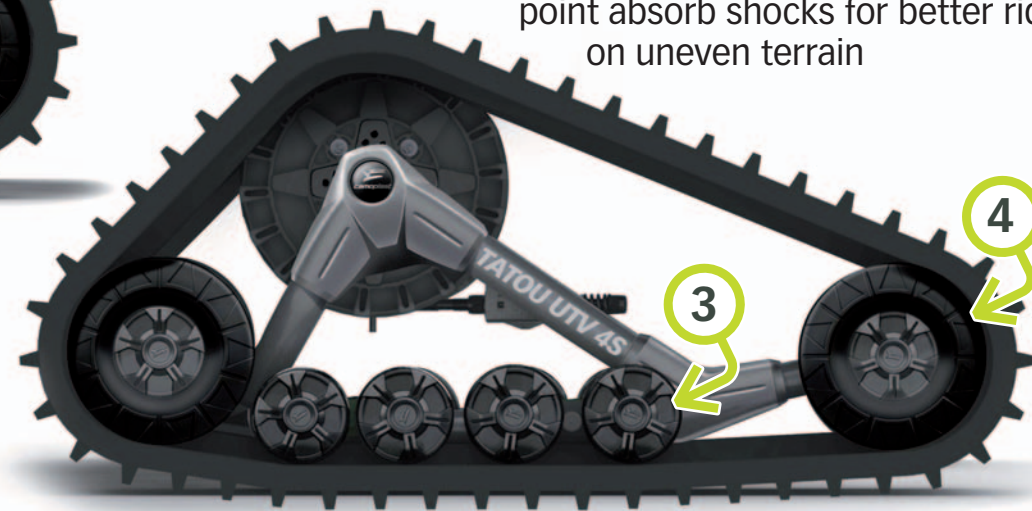

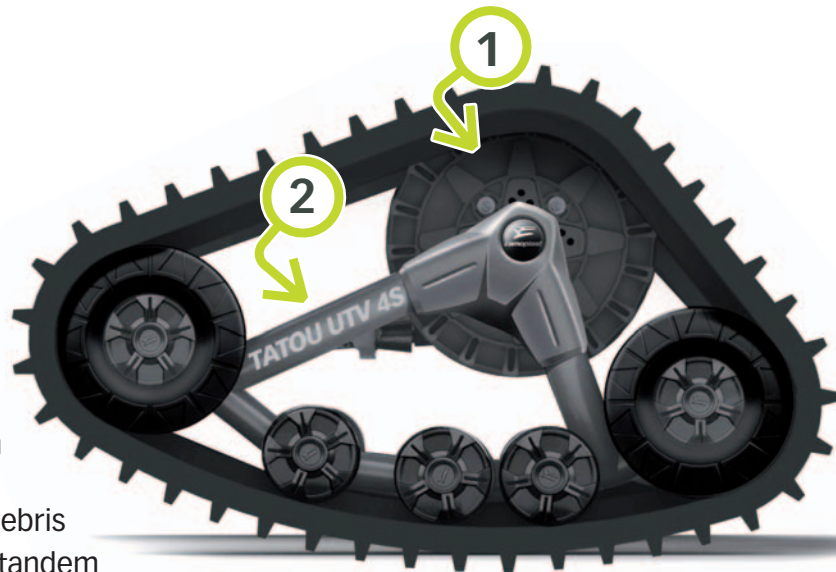

INTERNAL DRIVE SYSTEM

- Unique 4 Season riding solution
- Reduced friction
- Improved acceleration

2

NEW TATOU UTV 4S FRAME

- Solid steel fabrication based on proven Camoplast Tatou systems
- Open design facilitates evacuation of debris
- Front and rear undercarriages pivot in tandem
- Front system: less than 95 lbs (43 kg) (including all mounting hardware)
- Rear system: less than 112 lbs (51 kg) (including all mounting hardware)
- Charcoal gray finish compliments any UTV color scheme
- Virtually maintenance free
- Large footprint (2470 square inches / 1.59 square meters) for maximum floatation and best deep snow performance
- Maintained speed: 65%

FEATURES

- True 4 Season operation
- Easy steering in all conditions
- The most stable driving regardless of conditions
- Performance equal or superior to the Tatou UTV in deep snow conditions
- Wide wheels combine with special track tread to minimize vibration
- Puncture-proof tires (pioneered by Camoplast) improve reliability and provide maximum shock absorption for improved ride quality
- All wheels are supported by two sealed bearings protecting them from the elements
 - Dual stabilizers (*tandems*) on each pivot point absorb shocks for better ride on uneven terrain
